

Hi! (Salam!). I am Yegana Bakhishova. I am 25 years old and I come from Azerbaijan. I am a Philology graduate and work in the field of Education.

I have always loved reading novels, poems since my primary school years, therefore I majored in literature. If you ask me who my idol writer is, I would definitely say J.R.R.Tolkien.

I take great pleasure in seeing football matches. The energy of people, vibe and the atmosphere all around the stadium always fascinate me.

I took up playing chess nearly two years ago. For me It is an activity to have a whale of time with a friend !

The Earth without art is just " Eh."

I have an immense passion for Art. So far I have attended hundreds of cultural events (Opera, Ballet, Plays, Musicals and Museum visits, Exhibitions) and all these basically feed my soul.

An idea of exploring my country deeply, getting first-hand knowledge about cultural heritage, traditions and life styles of other nationalities living in Azerbaijan made me pay visits to the different regions of my country and have the life full of awesome memories.

All photos have been taken in Sheki, UNESCO preserved city.

Photos from other art visits.

I have also been a part of some volunteering activities and trainings about education, nature preservation and international relations.
